Thank you for the heads up, Calvin.

I knew that the Class VI permit application was coming soon, and I'm excited to see it and to discuss EPA's approach for the review.

Hi Shari,

R9 has received the first Class VI UIC permit application from the Clean Energy Systems. We are currently reviewing the application for administrative completeness. In a few weeks we will have Cadmus conduct a tech review of the application if it is administratively completed.

We are also taking a look at the recent Chalk Cliff's response and its updated permit application and may need Cadmus' assistance in reviewing certain parts of the updated permit application soon.

Thanks,

Calvin
